Statement of the Substance of Interview

Dear Sir:

The Applicant agrees that the Interview Summary Record mailed August 4, 2010 meets the requirements of 37 CFR 1.133 and 1.2 as well as MPEP Section 713.04. Applicant agrees with the Interview Summary Record except as noted below. In addition to Matthews, which was discussed at the interview, the Hockey reference was also discussed. The Interview Summary Record is also in error to the extent that it implies that Applicant agrees that the "prior art cited within the Final Rejection mailed 13 January 2010 would read upon the recited claim limitations." Specifically, Applicant believes that the pending claims do not read on the prior art cited and that there has been no proper anticipation rejection. In addition, the Examiner is referred to the Interview Summary Record mailed January 20, 2010, wherein the Examiner stated that the amendment made previously "would most likely overcome the prior art of Hockey."

Respectfully submitted,

NELSON MULLINS RILEY & SCARBOROUGH, LLP
